

3. A State must adopt and enforce in a consistent manner the requirements referenced in the above guidelines in order for the FMCSA to accept the State's determination that it has compatible safety requirements affecting interstate motor carrier operations. Generally, the States would have up to 3 years from the effective date of the new Federal requirement to adopt and enforce compatible requirements. The FMCSA would specify the deadline when promulgating future Federal safety requirements. The requirements are considered of equal importance.
